and there is good reason for believing that the declaration is made in good faith. Before declaring war Japan seems to have tried her resources just to see if everything was in good fighting trim. In less than a week she has practically swept the Chinese navy from the seas, has destroyed two of their best battleships and three new a mored cruisers, sunk the fastest transport in the China service, captured one of the memory are convoying it, scattered the rest of the fleet, and has already apologized to Great Britain for not having noticed the trifling circumstance that the transport was flying the British flag.

### THE RELIEF FUND SCANDALS.

There is hardly a greater scandal in the ity than the alleged misuse of the one nillion dollar Relief Fund by the Park Commission

The people gave one million dollars to elleve the sufferings of the deserving poor of the city during last Winter by supplying work to those willing to labor. so as to save their families from starvaion. In order to furnish the readlest work, and at the same time to make it useful to the city, it was determined to put it into the hands of the Park Com-

he suffering poor, the Commissioners sound labor tickets and gave them to heir political friends and leaders for distribution among their heelers. Invoted a portion of the money to purchases of material from their friends and to the benefit of a few pet ontractors. The Commissioners also ought to apply the fund to add to their regular appropriation for ordinary repairs and other work made by Board of Apportionment, and thus by ndirection to violate the law.

These charges have been openly made They have never been met. Nor has any report been offered to the people of the uses to which the Relief Fund has

This is outrageous, and it is a scandal juite as glaring as any from which the city is now suffering.

Bluster and fight are two very different things, and 'as a rule it is found that men who do the most bullying and talk the most about fighting are the east likely to fight. The Tillman campaign in South Caro-

If vituperation and clamor could kill, the Palmetto State would now be without a Governor and short of brawling politicians. But as yet words have sufficed to let off the political gas of the chivalry, and there have been no funerals.

Notwithstanding the sweet north wind hat cooled the town, there were 211 deaths vesterday-all children of the tenment-house poor but thirty-seven. There is one reason why the Sick Babies' Fund should be supported and the humane work extended.

Lemonade, cake and candy were in great demand, and after the fair closed dancing was indulged in. Volunteers from the ranks of customers took turns at the piano, and Arthur Perls contributed selections on the violin to aid in the merry-making.
